

Your story is an important part of *our* story.

A solid funding round... a major milestone... a green light from regulators... when something important happens to your company (or project), **let GRA know**. Because we work to share the success of university researchers and entrepreneurs as they move their innovations toward benefitting people and businesses in Georgia.

How we share:

1 Promotion/amplification on GRA LinkedIn account

2 Brief article or roundup mention in *GRA Notes*

3 Feature story on GRA.org (new site launching in 2026)

PLUS: Inclusion in GRA storytelling through presentations, speeches, media pitches + other channels.

SHARE YOUR PROGRESS: Email Andrew Short, GRA's Director of Innovation Programs (AShort@GRA.org)
